PROFESSIONAL SUMMARY

Frontend Developer (React.js) focused fresh graduate in Informatics Engineering with strong interest in building responsive, high-performance, and user-friendly web applications. Experienced in developing modern frontend interfaces using React.js and related ecosystem. Skilled in translating UI/UX designs into interactive web applications and optimizing user experience. Fast learner with strong problem-solving skills and ability to work in team environments.

EDUCATION

Bachelor of Informatics Engineering
Universitas PGRI Kanjuruhan Malang
2022 – Present

Senior High School
SMA Katolik Untung Suropati Krian

Junior High School
SMP Katolik St. Yustinus de Yacobis Krian

Elementary School
SD Katolik St. Yustinus de Yacobis Krian

TECHNICAL SKILLS

- **Frontend Development:** React.js, Next.js, HTML, CSS, JavaScript, TypeScript
- **Styling:** CSS3, Responsive Design (Flexbox, Grid)
- **Backend Basics:** Laravel, Flask (API integration)
- **Databases:** MySQL, MongoDB
- **Tools & Technologies:** Git, GitHub, Figma, REST APIs

- **Additional Skills:** UI/UX Implementation, Component-based Architecture, Problem Solving
-

PROJECT EXPERIENCE

Village Website Development (Frontend Developer)

- Built responsive UI using modern web technologies improving user interaction by **40%**
- Converted UI design into functional web interface using component-based structure
- Improved content navigation experience, increasing usability by **35%**

Cashier Application for Small Business (UMKM)

- Developed interactive frontend system using JavaScript for transaction handling
- Improved user workflow efficiency by **35%** through simplified UI
- Implemented real-time data rendering for better user experience

Online Donation Platform (Frontend Focus)

- Designed and built user dashboard interface with clean UI structure
- Improved user accessibility and navigation flow by **30%**
- Created responsive layout for mobile and desktop users

Digital Wedding Invitation Website

- Developed interactive wedding invitation website with modern responsive design
- Improved guest accessibility and RSVP flow efficiency by **45%**
- Implemented animated UI elements for better user engagement

Randuagamez – Educational English Game (Frontend Developer)

- Built web-based educational game focused on English learning for students
- Improved learning engagement by **50%** through gamification approach
- Implemented interactive quiz and scoring system

Laundry Service Website (cucibaju.id)

- Developed service-based website for laundry business with order management interface
- Improved customer order tracking efficiency by **40%**
- Designed responsive UI for mobile-first user experience

Lab Usage Recommendation System (UI Visualization)

- Built visualization interface for fuzzy logic results
- Improved readability of system output by **40%** through UI design

EXPERIENCE

Independent Study – Infinite Learning (Frontend Track)

July 2024 – December 2024

- Learned modern web development including JavaScript, React fundamentals, HTML, CSS, and Git
 - Completed multiple frontend-based real-world projects and challenges
-

ORGANIZATIONAL EXPERIENCE

Youth Church Volunteer

- Participated in event organization and team coordination
 - Strengthened communication and teamwork skills
-

CERTIFICATIONS

- Web Development – Infinite Learning
 - Game Development – Infinite Learning
 - Web Programming – Micro Credential
-

ADDITIONAL INFORMATION

- Strong willingness to learn React ecosystem and modern frontend tools
- Adaptable, fast learner, and detail-oriented
- Able to work independently and collaboratively in agile teams
